Going to Be Fined.

When George Ade was a newspaper porter he was sent to "write up" an Irish laborer who had fallen from a building. When Mr. Ade arrived on the scene, several officers and others were helping the injured man into the ambulance. Mr. Ade pulled out his pad and pencil. "What's his name?" he asked one of the policemen.

The injured man, who had heard Ade and who mistook him for the timekeeper employed by the contractor, rolled his eyes in a disgusted

"What d'ye think o' that?" he muttered. "I'm goin' to be docked for the few minutes I lose goin' to the hospital!"-Success.

Laundry work at home would be Starch were used. In order to get the Defiance Starch, as it can be applied er strength than other makes.

"How comes it that this manufacturing town elects a millionaire for mayor?" asked the stranger.

"His popularity," drawled the native, "came from using perfumed gasoline in his auto."

NEAR DANGER POINT

POSSIBILITY OF A DICTATOR IN THE PRESIDENT'S CHAIR.

Faction of the Republican Party Seems Intent on Concentrating Power in the Chief Executive-Proceeding is Revolutionary.

The president of the United States is a unique figure amongst the heads of the nations. He has more power than the czar of Russia, because the ezar is held in check by the imperial council, whose members have great individual influence and represent not only the civil but the ecclesiastical much more satisfactory if the right power, which is omnipotent. The president controls absolutely his cabdesired stiffness, it is usually neces- inet and all other executive officials, sary to use so much starch that the through the influence of patronage. beauty and fineness of the fabric is He in a great measure controls the hidden behind a paste of varying majority party of congress. Only the thickness, which not only destroys the supreme court is above and independappearance, but also affects the wear ent of him and that court can be ing quality of the goods. This trou- packed for special purposes of great ble can be entirely overcome by using party necessity by the appointment to vacancies as they occur. President much more thinly because of its great. Roosevelt tried not long ago to obtain a promise from Chief Justice Fuller to retire, so that a Republican appointee of the president could take the place, thereby perhaps changing the decisions of the court on political questions. There is another power that President Roosevelt has invoked when he summoned representatives of capital and labor to his council chamber and forced them to arbitrate questions of disagreement between them and promise to abide by the decision of a commission of his appointing, there being no warrant for such a summary proceeding either in the constitution or the statute law. In that

> action and approve it. A faction of the Republican party. which may be termed the radical wing, is intent on concentrating all power in the hands of the president by virtually allowing him to become the dictator of politics, legislation, business and morals. No former president of the republic ever dreamed of this one-man power, and the fathers of the republic would have been discarded if they had attempted it. The legislative branch of the government was expressly made independent of the president as far as the lawmaking power is concerned, the president only having the right to recommend legislation and to veto bills he could not approve, but even the veto power was limited, for two-thirds of congress could override it.

case the suffering of the people from

the scarcity of coal produced by the

But lately another ruler has arisen that arrogates to himself imperial power, sometimes wisely wielded, but often sadly misplaced. No man is so good and great that he can do all things wisely and well, and the distribution of power through the legislative, judicial and executive departments was intended to so balance things that a dictator would be impossible.

We are on the verge of overthrowing that wise distribution of power and may regret before long that we have sanctioned, if not actually approved, most revolutionary proceed-The next president may be a worse man than the present one, he may be more adroit and circumspect in increasing and using his power. will find imperial power ready made to his hand and he may seize it. Could we dethrone him if he did so? He would command the army and the navy, and, under the new law, he also controls the militia. He could if he would overawe us and by adroit management perpetuate his power. There is no law against third terms or fourth ones, and it would not be difficult to find a pretext for the use of armed men at the polls and to drive those opposed to his re-election away from the counting of the votes, and partisanship would do the rest. This is what people must think of if they wish to see the perpetuation of the re-public in which all the public have

Lumber and the Tariff.

The tariff in relation to lumber does not illustrate the tariff evils representatively. Congressman Scott knows that and practically admits it. He also says he is in favor of the removal of the tariff on the cost of lumber and the added inducement it offers for the organization and maintenance of a trust in the lumber business, anything that would lead the timber cutters into Canada and away from what is left of American forests would be for the general good in this country. As for Canadian duties following the removal of American duties, it is pertinent to recall the years of effort made by Canada to secure a reciprocity treaty with the United States with especial reference to the needs and the surplus of the respective countries, and how fruitless this effort was. Canada is no longer seeking reciprocity It is employing a purely selfish tariff wherever it finds it in the least advantageous-thus following the example of the United States.

Rebellious Citizens,

One of the leading Republicans of Pennsylvania, Mayor Reyburn of Philadelphia, refuses to be a delegate to the Republican national convention. "Why should I play the hypocrite and participate in a convention which will indorse policies I do not agree with?" said the mayor to the Republican leaders who proposed that he be one of the Philadelphia delegates.

"No, I won't go to a convention which must assuredly indorse Roosevelt. I swallow him, but would not help to adopt resolutions indorsing

Then we have President J. F. Hanson, who for years has been the most conspicuous Republican in Georgia, denouncing President Roosevelt as "the greatest demagogue" of the day, crediting the present financial crisis to his agitation against railroads and other corporations. "I voted for Roosevelt," said Mr. Hanson, "and contributed to his campaign, but I am very sorry for it." This now undesirable citizen, who is also a railroad president, evidently belongs to the Harriman class, for he boosted the Roosevelt corruption fund and his sin has found him out.

SEARS, HOEBUCK & CO. INDICTED.

Charged with Using Mails to Defraud and in Misrepresenting Articles Sold.

Des Moines, Ia .- (Special) -- Sears, Roebuck & Co. of Chicago have been charged with using the mails to defraud. The indictment is on three counts. It is alleged that the company misrepresented articles in its catalogues sent through the mails. The first count charges that on June 13, 1907, the company devised a scheme to obtain money by false pre tenses from Dr. C. F. Spring of De-Moines by selling him white lead that Sears-Roebuck claim to have made. The indictment alleges it was made by others. A second count is on a ring bought by R. H. Miles, and the third count is the sending of another ring, alleged to have been mis represented, through the mails,

EQUAL TO THE OCCASION.

This Servant Girl Was Evidently a Person of Resource,

As a source of humor the Irish servant girl has long since fallen from her high estate, a result probably due to the better class of young women from the Emerald Isle who come here annually to help confuse the eternal "servant girl question." But now and again one of the old, naively ignorant sort turns up in a New York household, as was demonstrated the other day to a caller at a house on the West

The girl who responded to the bell was asked if her mistress was at To this inquiry she surprised the caller by putting her arms behind her back and replying in a rich brogue, as she thrust her face toward the caller: "Put th' tickets, in me mouth, ma'am, an' I'll go an' see. Me hands is wet."-N. Y. Press.

SORES AS BIG AS PENNIES.

Whole Head and Neck Covered-Hair All Came Out-Cured in Three Weeks by Cuticura.

"After having the measles my whole head and neck were covered with scaly sores about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along, taking the doctor's blood stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. Mrs. Henry Porter, Albion, Neb., Aug. 25, 1906."

A Sensitive Soul.

Owen Mudge was a very sensitive man. More than once at a harsh word he had forsaken profitable work and gone home for sympathy to his wife, One morning Owen started out to help Glenn Butler, who had bought a new stump-pulling machine and was preparing to clear a field.

Toward noon Owen came back, Mrs. Mudge sighed and waited sympathetically for the explanation.

"I just couldn't stand it," said Owen, rubbing his jaw. "When I see that stump-puller twist them roots out, it reminded me so of the times I went to the dentist to get back teeth exand a president may soon appear that tracted. The first thing I knew I was limp as a rag, and I just ached all over and had to quit."-Youth's Companion.

PRODUCTIVE POWER OF WESTERN CANADA SOIL

Winnipeg Correspondence. There has never been any who have doubted the productiveness of the soil of Western Canada, but there are sometimes found those who question the fact of its superiority. During the past season it has been shown that in grain raising qualities it possessed the very best. The late spring prevented grain being sown in many cases before the middle of May. Yet, a large percentage of that sown at that time produced excellent yields. Had it not been for the frost early in August, which visited most of the north half of the continent, there would have been a magnificent yield in every district in Western Canada. Throughout the Southern Alberta district where about 100,000 acres was sown to winter wheat the yield will be enormously large. There are vast tracts of valuable grain growing land in Western Canada that are available for home steads, the Canadian Government giving 160 acres free, and entry may be made by proxy, by any near relative, thus saving considerable cost to the American who may have entry made in this way. Any Canadian Govern-

Carnegie, Okla., March 12, 1907.

Severis, of Mountain View, Okin., all well known, reliable gentlemen, writer.

Carnegie, Okla., March 12, 1907.

Dr. C. F. Simmons, San Antonio, Texas.

Dear Sir:—We left Oklahoma on the morning of the 6th of March to visit your Atascosa County lands, for the purpose of seeing the land and investigating your proposition for ourselves, and our neighbors who are contemplating purchasing.

We spent some time on the ranch and satisfied ourselves thoroughly that the land was all that you had represented it to be. The soil is fine and the water is as good is can be.

We have brought away samples of soil taken from different places, and Cotton, Alfalfa, Wheat and Corn that can be seen by calling at the office of F. L. Beatty, at Carnegie, Oklahoma. This land will produce anything that is planted upon it if properly cultivated.

We stood on top of the hill in the Musgrove pasture, and could see for miles in every direction, almost over the entire property. This land is all irrigable, and sufficient water can be obtained to irrigate the entire property.

property.

We are entirely satisfied to recommend the proposition to our people.

We are entirely satisfied to recommend the proposition to our people. The only thing needed to make this a great country is a railroad, and we have your assurance that it will be built at an early date. If you can satisfy the people that this railroad will be built through this hand within any reasonable time, there will be no trouble about finding purchasers for every farm and lot that you have got.

It is such an easy country to build a railroad over, and you are offering such a large bonus, and the tonnage will be so great for a railroad through that country when this property is sold, that you certainly will be able to find some one who will build the road without delay.

We will be glad to have you refer anyone who wants to know anything about this land to us.

Yours truly,

Yours truly, BEATTY, I. F. ISHAM. Carnegie, Okla. G. A. SEVERNS, Mountain View, Okla.
